

# Interplay | Production Solution Packages

From high-performance editorial workgroup production, to a core media workflow hub for any media enterprise, Interplay® | Production Solution Packages can be the best and most affordable way to boost production efficiency, integrate and automate media operations, and gain new capability.

Far more than a collection of components, Interplay | Production Solution Packages provide integrated tools and asset management along with Avid® Professional Services, workflow analysis, project management, installation, and Avid Advantage support to ensure a fast and successful start, all at a single price you can afford.

## Interplay | Production Starter Package

This entry-level solution array gives small workgroups the Avid Media Composer® | Software editing, ISIS® storage, portable MediaCentral™ | UX (formerly Interplay Central) media tools, and Interplay | Production management structure they need to elevate creativity, accelerate project throughput, and lay the foundation for future growth.

## Interplay | Production Facility Package

You don't have to compromise on creativity, speed, or flexibility. With best-in-class production management and services, editing tools, and shared storage, the Interplay | Production Facility Package even includes Media Composer | Cloud (formerly Interplay Sphere) to extend real-time facility connection to any location or contributor.

Both Interplay | Production packages come complete with installation services\* and support by a dedicated team of Avid professionals with experience and expertise in ensuring the success of our enterprise customers worldwide. Whether you want to start from the ground up, install a comprehensive upgrade, or have big plans but a limited budget, Interplay | Production Solution Packages are a fast and easy way to take your production or media operations to a new level.

To speak to an Avid solutions specialist about your Interplay needs, please visit [avid.com/info-interplaypackages](http://avid.com/info-interplaypackages) to request a contact.

\* Facility Package comes in two configurations one including Professional Services and one excluding Professional Services. Both Facility Packages include 1 year support.
